A COOL WAY TO TREAT BURNING CONDITION

Rx

Rablentis™

Rabeprazole 20mg+Domperidone 30mg (SR)

Capsules

FOR RAPID RELIEF

Combination provides significant & remarkable improvement
in symptoms of gastroesophageal reflux disorder

Rabeprazole

Faster onset of action maintain intra gastric pH>3
for longer period

Domperidone

Significantly decreasing postprandial fullness
Nausea & vomiting in patients with gastroparesis

In pain and inflammation associated with muscle spasm...

..Help your patients to remain active

^{Rx} **Aplotiz[®] MR**

Aceclofenac 100mg+Thiocolchicoside 4mg **Tablets**

Bring Back the relief

Aceclofenac

- Potent analgesic and anti-inflammatory NSAID
- Safe & well tolerated

Thiocolchicoside

- A muscle relaxant agent with anti-inflammatory and analgesic actions

Sports Injuries

Masculo Spondylitis

Post Operative Spasm

Spinal Spondylitis

**Modern lifestyles,
poor eating habits & stress...**

...Leads to unhealthy life

Rx
Nulentis[®]

Multi Vitamins, Multi Minerals, Antioxidants & Zinc

Each day, A New healthy day

- Improves body's resistance to relieve stress
- Boosts the immune system
- Exhibits positive effect on growth, energy & appetite
- Prevents from free radical damage
- Helps to recover faster from disease

General debility

Oxidative stress

Chronic illness

CV disorders

Pregnancy & Lactation

Increase Energy To Pursue Daily Activities

Deficiency of Vitamin D...
common prevalent disorders among Indians...

Rx Nulentis[®] D3

Cholecalciferol (Vitamin D3) 60,000 IU Oral Solution

Let the NU Vitamin D in

Rapid Improvement of Vitamin D Level

- Restores vitamin D levels
- Enhances calcium absorption & it's re-uptake
- Meets immediate calcium deficiency & Maintains, it's balance
- Improves skeletal muscle Strength

Indication:

- Osteopenia
- Osteoporosis
- Severe hypocalcemia in renal impairment
- Hormone replacement therapy
- Post menopausal osteoporosis

...Help your patients to maintain vitamin D levels

For the management of Chronic Liver disease

Aplegard[®]

Ursodeoxycholic Acid 300 mg **TABLETS**

Restores Liver health

The rational approach in liver diseases.

- UDCA Mono therapy preferred as the first line therapy in ICP due to more efficacious, Cost effective and convenient.
- Prevents & reverses alcohol induced damage.
- Facilitate significant reduction in liver enzymes from base line.
- Delays liver disease progression.
- Improves appetite.

Indication

Chronic Liver Diseases
NASH, NAFLD, Cirrhosis,
Cholestatic Liver Disease

For the Management of appetite related issues...

...Help your patient with Noval approach

^{Rx} **AplenovaTM**

Cyproheptadine 2 mg+Tricholine Citrate 275 mg Syrup

Noval Appetizer

Cyproheptadine :

- Activate safety centre due to which appetite is lost.

Tricholine Citrate :

- Potent antihistamine & serotonin antagonist properties.
- Suppresses the symptoms of allergic reaction.
- Increases hepatobiliary flow.

POOR APPETITE

ATONIC CONSTIPATION

FATTY LIVER

VIRAL HEPATITIS

In Management of type 2 Diabetes ..

...When monotherapy is not enough

Rx

SitalentisTM-M

Sitagliptin 50mg+Metformin 500mg Tablets

Smart & Safe

Approved by USFDA, EMA

Trusted in 130+ Countries & having 2872 + Clinical Evidences.

Sitagliptin

Potent & highly selective Dipeptidyl peptidase IV (DPP4) inhibitor.

Significantly reduces HbA1c, FPG &PPG levels.

Metformin

Increases insulin sensitivity, improves peripheral uptake of glucose & reduces hepatic glucose output.

Safe, Effective & Well Tolerated

For Management of tough infections ,
when primary drugs failed to deliver the results ...

...Rely on tough antibiotic

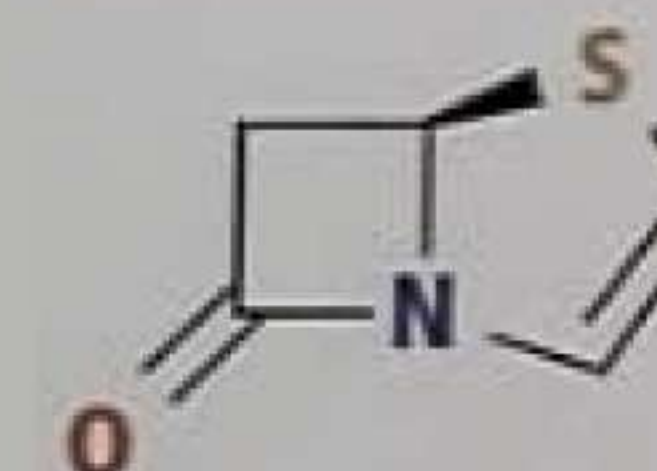

^{Rx} Keflentis[®]-CV

Faropenem Sodium Hydrate 200mg+Potassium Clavulanate 125mg Tablets

The Tough Player

Unique crystal structure

High degree of antibacterial activity
Lesser chances of resistance

- Broad Spectrum Antibiotic
- Excellent activity against ESBL producing E.Coli & klebsiella spp.
- 90 % clinical cure rate in recurrent UTI due to ESBL E coli

Excellent Clinical Cure Rate

Infections	Clinical Cure Rates
Acute bacterial sinusitis	82.0%
Acute exacerbation of chronic bronchitis	87.60%
Community acquired Pneumonia	92.5%
Uncomplicated skin & skin structure infections	85.40%

^{Rx} Also Available
Keflentis[®]-300
Faropenem Sodium Hydrate 300mg (ER) Tablets

To improve glycemic control
in adults with type 2 diabetes ...

...Help your patients with superior
efficacy & safety

Rx

LinaromTM

Linagliptin 5 mg Tablets

Linear efficacy & safety

- Potent, selective DPP4 inhibitor, provides effective glycemic control.
- Better HbA1c reduction in patients with higher base line value.
- No increased risk of 3P-Mace
*CV death *Non fatal MI *Non fatal stroke
- Long-term CV safety profile in patients with T2D, CV disease.
- Better Cardiac & Renal safety profile

For the treatment of day to day infection ...

...Rely on time tested antibiotic

Rx

Klavlentis[®]-625

Amoxycillin 500mg+Clavulanic Acid 125mg **Tablets**

The Preferred Duo

Offer quick & sure relief in day to day infection

- ◆ Excellent coverage against all Respiratory pathogens.
- ◆ Well Absorbed & distributed into the lungs
- ◆ Higher Susceptibility (97.9%) for Beta-Lactamase producing strains.
- ◆ First line therapy in treatment of RTI, SSTI and Dental infection.
- ◆ Higher Clinical response in URTI (Otitis Media, Sinusitis, Tonsillitis and Pharyngitis) & LRTI (AECB & CAP)

For the treatment of allergic rhinitis associated with **Asthma** & **Allergic** bronchitis

^{Rx} Faxoquin[®]

Fexofenadine Hydrochloride 120 mg & Montelukast Sodium 10 mg Tablets

FIX ALLERGY FEEL BETTER

Significantly reduces symptoms like mucus secretion airway edema

Fexofenadine

- Effective in reducing total symptom score of allergic rhinitis

Montelukast

- Inhibits Bronchoconstriction

To improve glycemic control
in adults with type 2 diabetes ...

...Help your patients with superior
efficacy & safety

^{Rx}
LinaromTM-M
Linagliptin 5 mg+Metformin 500 mg Tablets

Proven Efficacy & Safety

- Combination of Linagliptin & Metformin, Superior to respective monotherapy.
- Significantly reduces HbA1c, FPG & PPG levels
- Initial combination of Linagliptin & Metformin, very well tolerated over the long term with low glycemic risk.
- No increase in risk of hospitalization due to HF, even in patients at high - risk of heart failure.
- Better Cardiac & Renal safety profile

In the treatment of recurrent &
resistant RTI& UTIs ...

...ideal choice to eradicate the pathogens

Rx

Keflentis[®]

250/500

Cefuroxime 250mg / 500mg Tablets

A Powerful Partner...

Assures faster symptomatic relief

- Broad spectrum antibiotic with activity against both gram positive & gram negative organisms.
- Better clinical cure rate in recurrent bacterial infections.
- Ideal empirical therapy in RTI & UTI
- Better activity against all respiratory pathogens
Including Beta lactamase producing H influenza & M.catarrhalis.

In management of productive cough ...

...Guard your patients to remain active & alert

^{Rx} LorgardTM AM

Loratadine 5mg+Ambroxol Hydrochloride 60mg Tablets

Longer Relief

- Reduces cough severity & sputum viscosity
- Better symptomatic relief
- Convenient BD dose

Loratidine

- Most effective 2nd generation anti histamine
- less sedative than other anti histamine

Ambroxol

- Mucolytic & Mucokinetic agent

For newly diagnosed Hypertensives

Smart way to tackle Hypertension

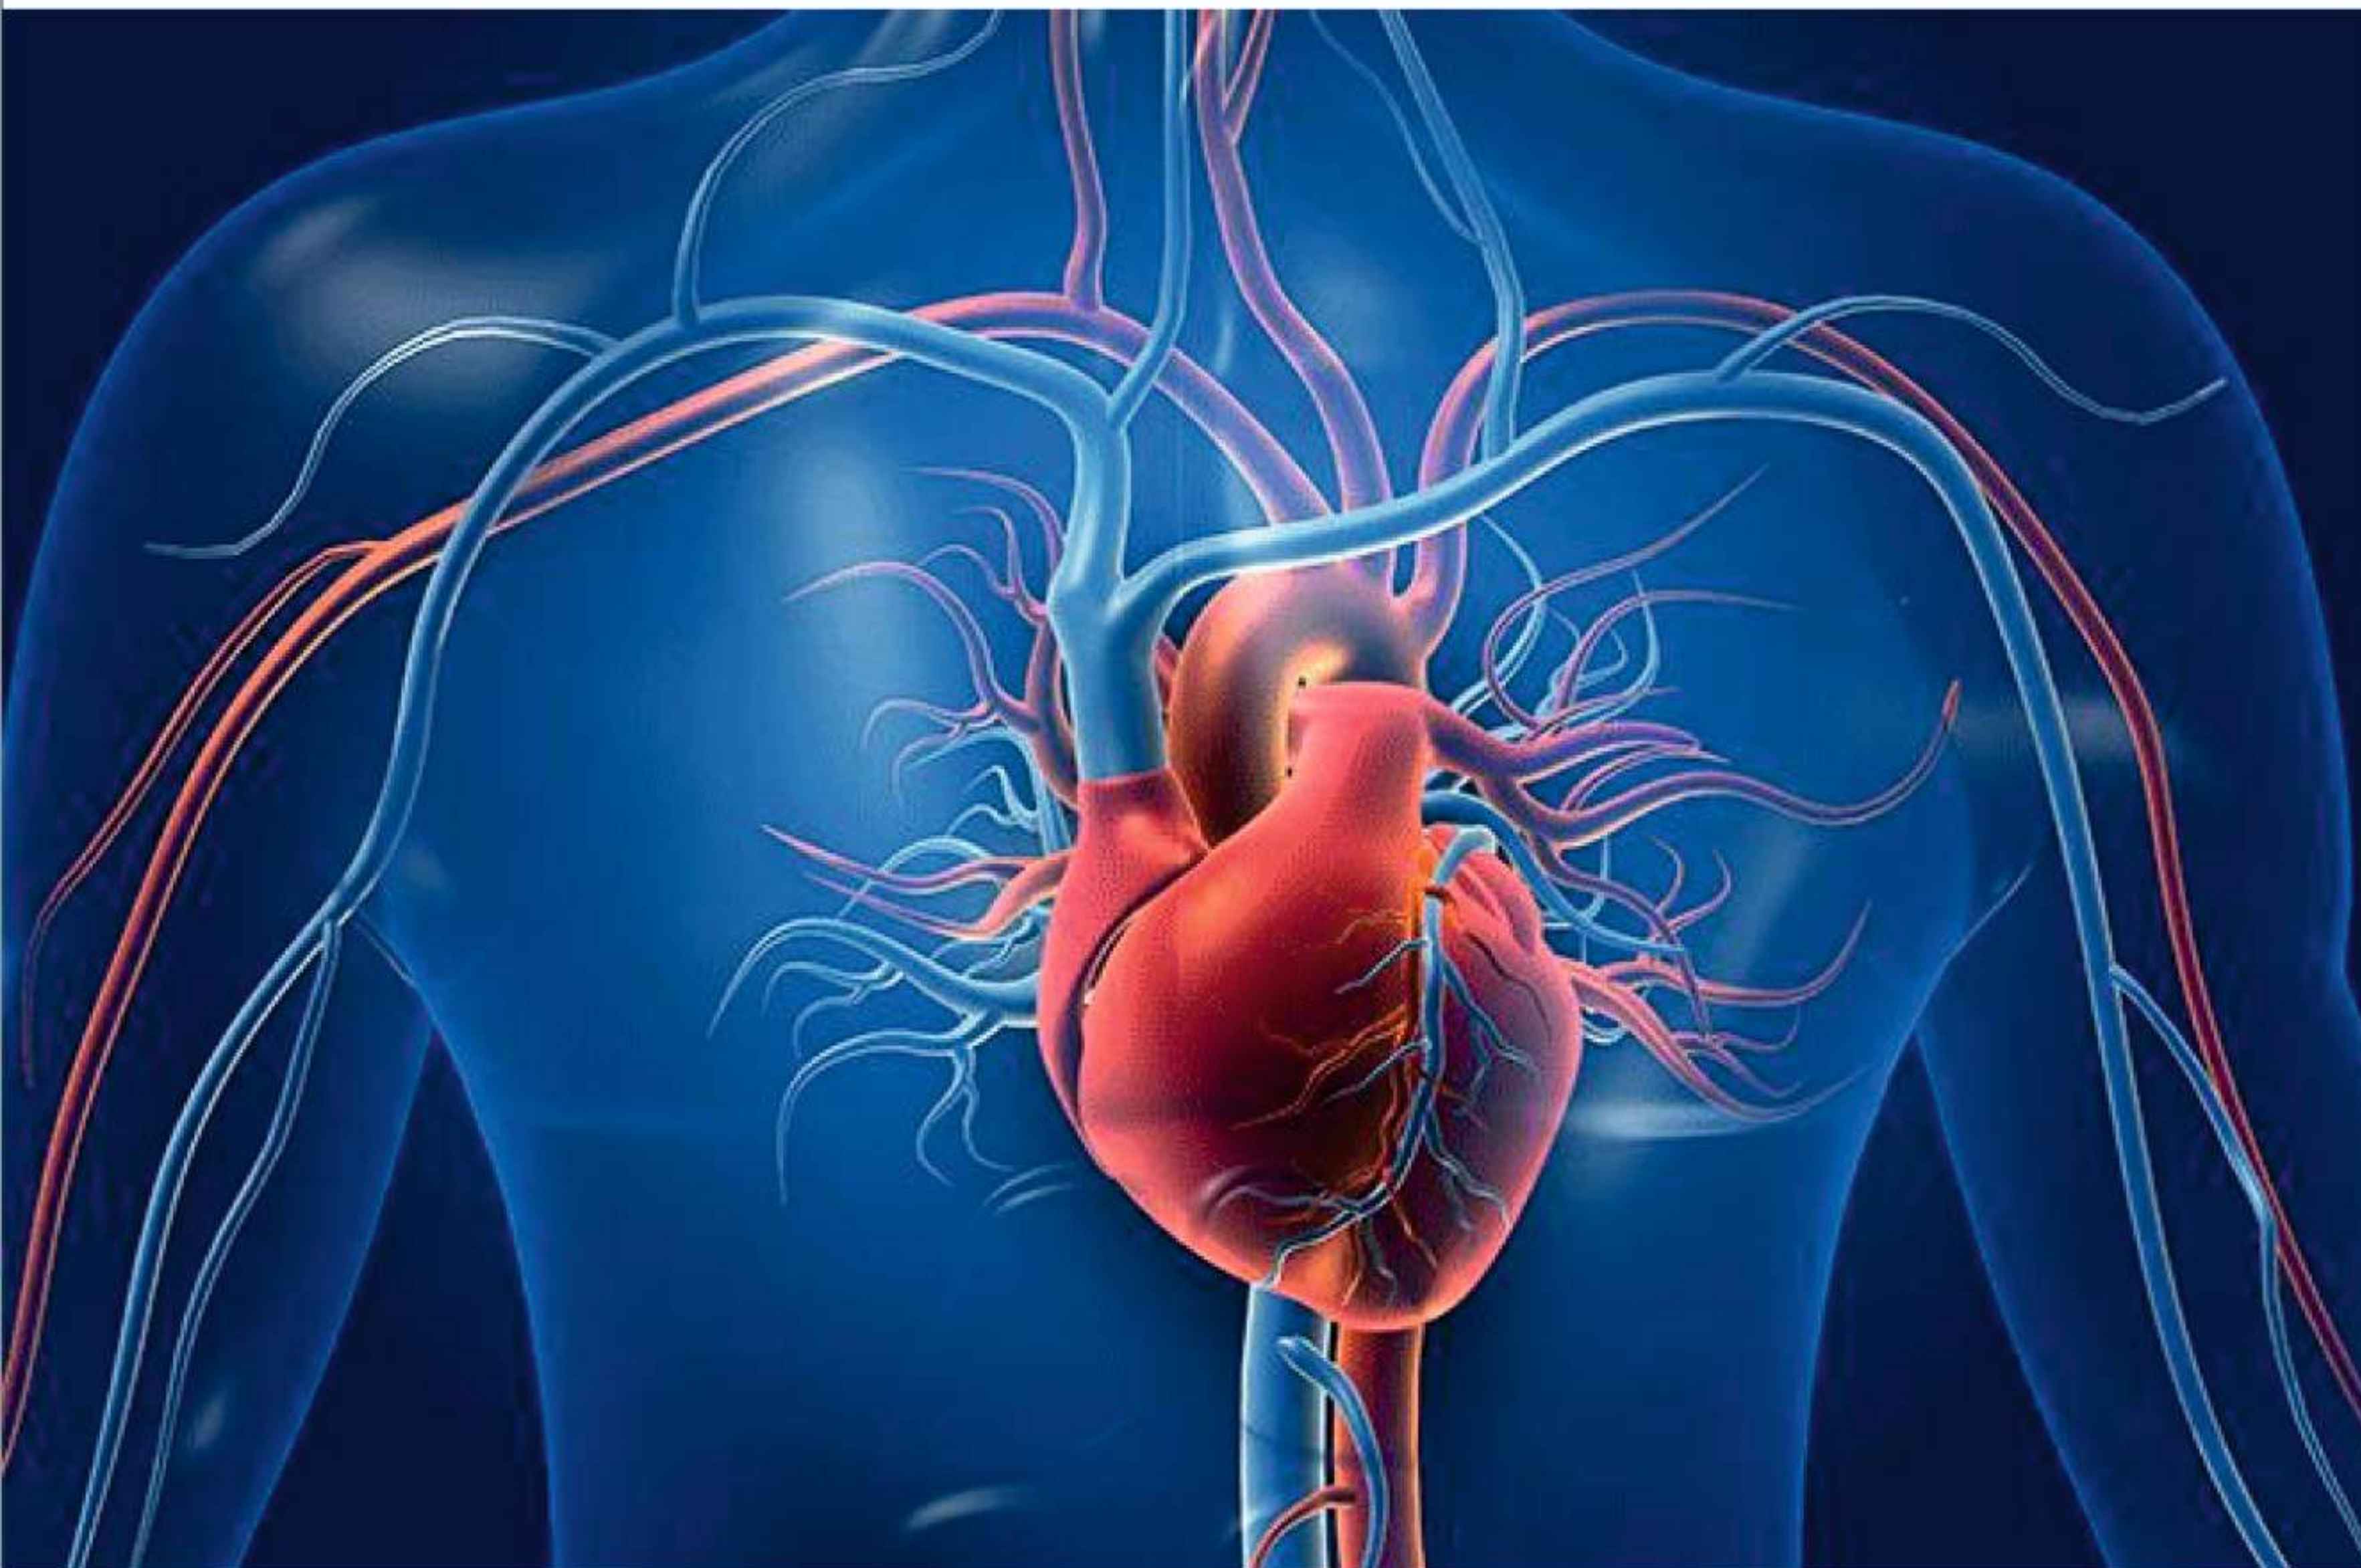

The Time Tested Anti-Hypertensive

- Ensure significant BP reduction for 24 hours.
- Improves insulin sensitivity & lipid profiles
- Offers longest plasma half life among all sartan's.

When Hypertension becomes difficult to control...

...Smart way to tackle Hypertension

Rx

Teliquin[®] AM

Telmisartan 40mg+Amlodipine 5mg Tablets

Total Steady Control

- Offers significant reduction of BP along with nephro-protective effect.
- Exerts metabolic effect & lowers arterial stiffness, which are beneficial to patients with T2DM
- Reduces endothelial dysfunction & effective in the progression of diabetic nephropathy.
- Safe & effective in long term use.

Rx

Also Available

Teliquin H

Telmisartan 40 mg +
Hydrochlorothiazide 12.5 mg Tablets

In management of Type 2 diabetes mellitus...

...Help your patients for better glycemic control

^{Rx} VildaquinTM-M

Vildagliptin 50 mg+Metformin Hydrochloride 500 mg Tablets

PERFECT PAIR

Early initiation of combination therapy with metformin provides greater durability than metformin alone.

Vildagliptin

- Complete DPP-4 inhibition due to covalent bonding to DPP-4 enzymes
- Superior glycemic efficacy with significant HbA1c reduction

Metformin

- Lower Risk of hypoglycemia
- Neutral on body weight

In Management of Neuropathic pain ...

...Guard your patients for better quality of life

R_x

CynogardTM-NT

Pregabalin 75mg+Methylcobalamin 1500mcg
+Nortriptyline 10mg **Tablets**

Complete Neuropathic Pain Therapy

Combination therapy plays a beneficial role in patients with uncontrolled neuropathic pain with anxiety & depression .

Pregabalin :

provides pain relief by modulating calcium channel activity.

Nortriptyline :

potent TCA, increases the levels of Serotonin & noradrenaline, stops the pain signals in brain.

Methylcobalamin :

Helps in production of myelin sheath, protects nerve fibers & rejuvenates damaged nerve cells .

The best choice in neuropathic pain.

**When movement get stuck
due to Pain & inflammation...**

Rx

Aplotiz[®]-90

Etoricoxib 90 mg **Tablets**

Powerful Pain Reliever

Effective & powerful Cox -2 inhibitor

Superior efficacy as compared to Naproxen & Aceclofenac

Safe & well tolerated

...Needs powerful pain reliever

Indication

Osteoarthritis

Pre & Post operative pain

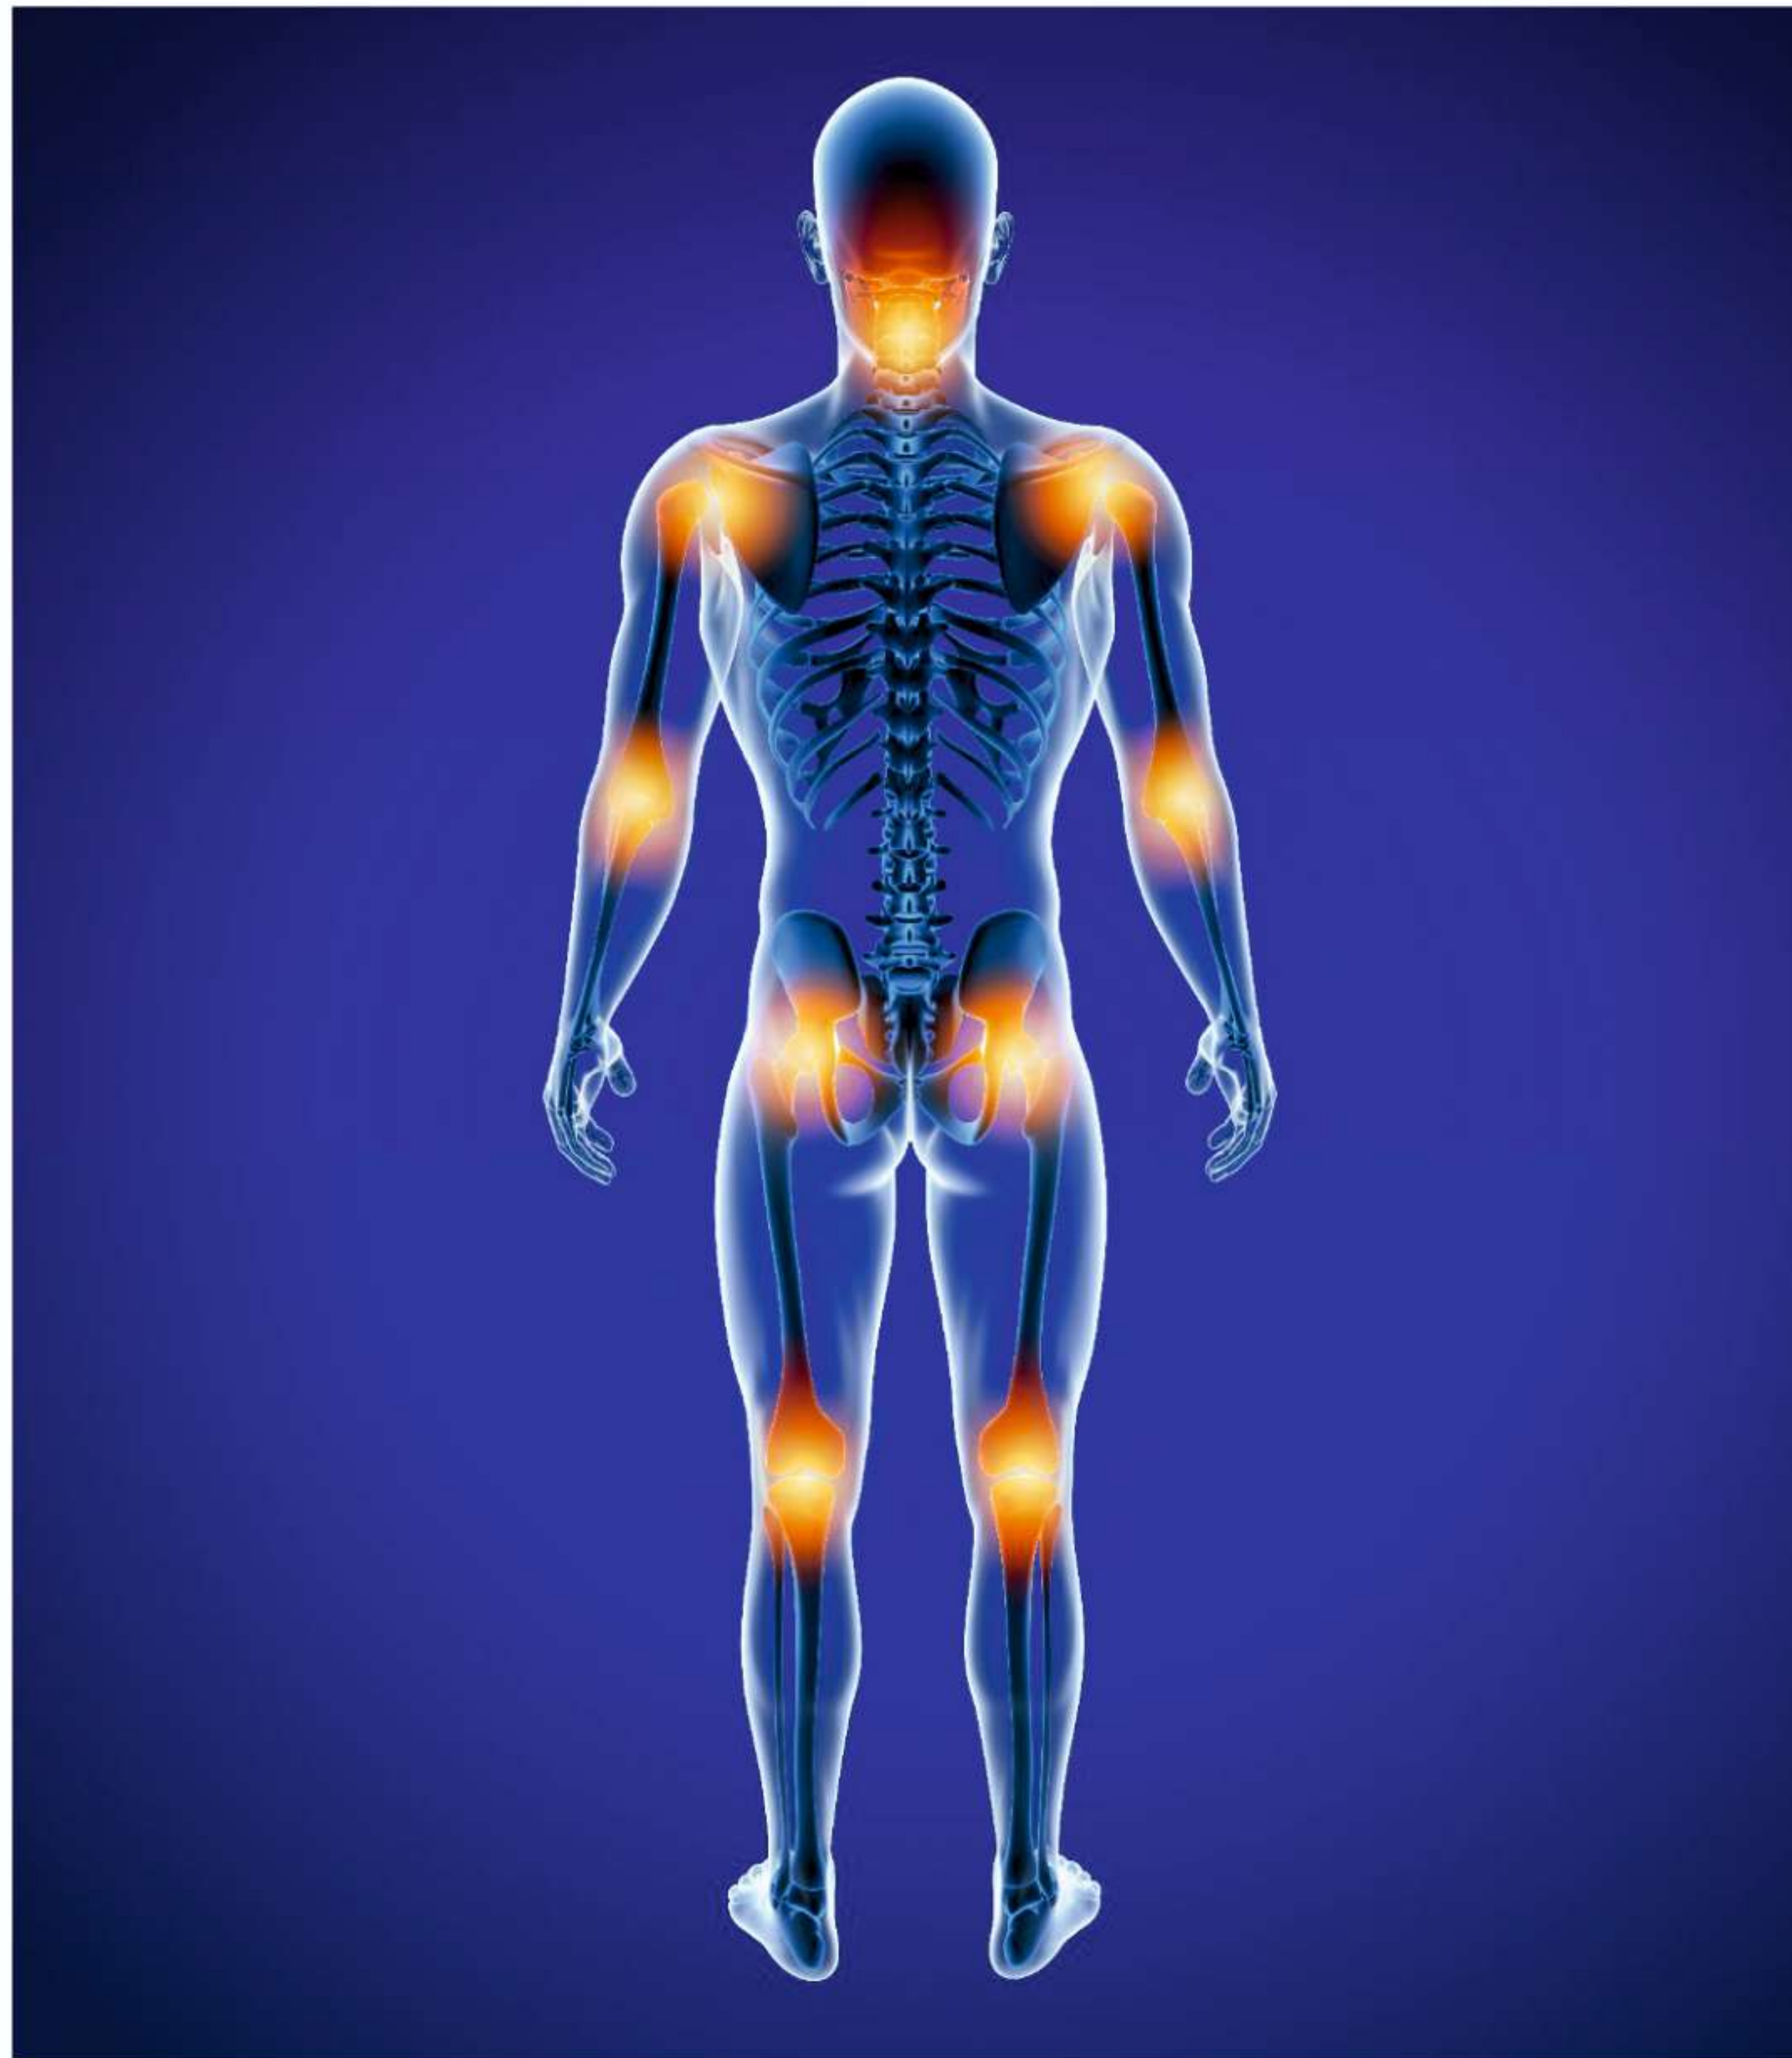

Acute Pain

Rheumatoid Arthritis

Chronic Low Back Pain

Acute Gouty Arthritis

When life is breakdown due
to moderate to severe pain ...

...for effective pain control

R_x

Aplotiz[®]-P

Etoricoxib 60 mg + Paracetamol 325 mg **Tablets**

The Pain Expert

Etoricoxib

Effective & powerful Cox -2 inhibitor

Potent NSAID with analgesic & anti-inflammatory action

Paracetamol

Time tested analgesic & antipyretic agent

Indication

Pre & post operative pain

Low back pain

Skeletal muscle spasm

Osteoarthritis
